#### المحور الرئيسي

#### The main topic of the Surah :

■ To be firm upon the religion.

One of the means of firmness is the du'a. There in an outer and inner firmness. It is easier to attain outer firmness than the inner. Surah Aal Imran takes care of both kinds. The highlight for outer firmness is when a delegation of the Nasara came to the Masjid; this was the first dialogue between the believers and the Nasara. For inner firmness, the highlight is on the Battle of Uhud. Some of the believers disobeyed the command of the Messenger of Allah صلى الله عليه وسلم, and

this brought about their defeat.

■ Outer firmness → 1-120

1. Strengthening the aqeedah of the believers.
2. Attaining a common ground.
3. Bringing the evidence.
4. Warning for those people of the book who lie and fabricate.
5. Be fair and just.
6. Beware of following blindly.
7. Firmness when facing external ideas.

The family of Imran is the best example of firmness when faced with outer elements.

■ Inner firmness → 121-200

1. Denying the blessings of Allah. The way to firmness is to be obedient. Disobedience brings defeat.
